PROFESSIONAL SUMMARY

Senior mobile engineer with nearly 5 years of experience delivering production applications across Norway, the US, UK, Germany, Australia, and Saudi Arabia. I help companies build scalable mobile products from architecture through App Store release — leading teams of up to 4 developers, owning technical decisions, and partnering directly with founders and product owners.

CAREER HIGHLIGHTS

- Delivered **12+ production mobile applications** across logistics, fitness, fintech, AI, nutrition, and healthcare.
- Published **7+ apps** on Google Play and the Apple App Store.
- Currently leading mobile engineering for **SnapBudd**, a Norwegian delivery platform serving **360+ stores**.
- Led teams of up to **4 developers** — code reviews, sprint planning, technical interviews, and mentoring.
- Managed full SDLC: requirements, architecture, CI/CD, deployment, and production support.

EXPERIENCE

Flutter Team Lead May 2025 — Present
SnapBudd · Oslo, Norway

- Lead mobile engineering for a Norwegian delivery platform with store-to-door fulfillment within 60 minutes.
- Own scalable architecture for customer, driver, and merchant flows — ordering, live tracking, Stripe payments, and secure verification.
- Lead a team of 4 developers; drive architecture decisions, code reviews, and coordinated releases.

Team Lead · Freelance May 2025 — Present
Healthcare & Public Service Products

- Lead architecture and delivery for USCIS, TenacityMed, HealthSteps, and MindOra.
- Define secure data flows, role-based access, module boundaries, and API integrations across cross-functional teams.

Flutter Team Lead Nov 2024 — May 2025
Aeyron

- Led delivery of Graid, an AI-powered card marketplace with valuation, secure transactions, and trading workflows.
- Architected marketplace modules, sprint execution, and maintainable code quality.

Freelance Mobile Engineer Jun 2023 — Nov 2024
Startup Clients · United States

- Delivered MOOCH (digital loan agreements, moochloans.com) and Venvoi (location-based social) from roadmap to App Store release.
- Worked directly with founders on architecture, real-time features, and production deployment.

Flutter Developer Aug 2021 — May 2023
SoftwareHub · Karachi, Pakistan

- Shipped Walking Challenge and Work Life Organizer — challenge systems, leaderboards, and reusable UI patterns.
